

# MATERIAL SAFETY DATA SHEET

## SECTION I - PRODUCT IDENTIFICATION

**Product name:** PENETRANT PLUS LUBE SHIELD  
**Chemical formula:** Complex mixture  
**Product family:** Lubricant cleaner  
**Product use:** Complex lubricant

**Supplier name & address:**  
Comlube Technology Inc.  
110 Scotia Court # 34  
Whitby, Ontario, L1N 8Y7  
**Telephone #:** (905) 438-8418

## SECTION II - HAZARDOUS INGREDIENTS

<u>Ingredients</u>	<u>CAS #</u>	<u>%</u>	<u>LC<sub>50</sub>, ppm (Rat, inh.)</u>	<u>LD<sub>50</sub>, mg/kg (Rat, oral)</u>
Alkanes, chemically modified	68410-99-1	15-40	Not established	7 g/kg (rabbit)

## SECTION III - PHYSICAL DATA

<b>Physical state, odour and appearance:</b>	Amber liquid with pleasant fragrant odour.		
<b>Odour threshold:</b>	Not available	<b>Specific gravity:</b>	1.1
<b>Coefficient of water/oil distribution:</b>	Not available	<b>Vapour pressure (mm Hg):</b>	Not available
<b>Boiling point:</b>	280°C	<b>Freezing point:</b>	Not available
<b>pH:</b>	Not applicable	<b>Vapour density (Air=1.0):</b>	Not available
<b>Evaporation rate (n-BuAc=1.0):</b>	Not available	<b>Solubility in water (w/w):</b>	Insoluble
<b>Volatiles, % by weight:</b>	Not available	<b>Volatiles, % by volume:</b>	Not available

## SECTION IV - FIRE AND EXPLOSION DATA

**Conditions of flammability:** Not flammable under normal conditions, but may be ignited by very strong ignition sources.  
**If yes, under which conditions:** Container may overpressurize when exposed to excessive heat. Must be excessively heated before ignition will occur.  
**Means of extinction:** Water fog, carbon dioxide, dry chemical or foam.  
**Sensitivity to mechanical impact/static discharge:** Not sensitive to static discharge or impact under normal handling conditions  
**Flash point (Method):** 125°C (247°F) for complex aromatic/aliphatic mixture  
**Upper flammable limits (% by volume):** Not available  
**Lower flammable limits (% by volume):** Not available  
**Auto-ignition temperature:** 235°C (455°F) for complex aromatic/aliphatic mixture  
**Hazardous combustion products:** Oxides of carbon.

## SECTION V - REACTIVITY DATA

**Stability:** Stable. Hazardous polymerization will not occur.  
**Incompatible materials:** Strong oxidizers.  
**Conditions of reactivity:** Excessive heat, strong oxidizers, acids and bases.  
**Hazardous decomposition products:** Oxides of carbon.

---

---

## SECTION VI - TOXICOLOGICAL PROPERTIES

---

---

**LD<sub>50</sub> of material:** See Section 2

**LC<sub>50</sub> of material:** See Section 2

**Routes of entry:**

**Skin contact:** Prolonged skin contact may cause irritation.

**Skin absorption:** Absorption through the skin is not likely to be a major route of entry.

**Eye contact:** Liquid splashes may irritate the eye.

**Inhalation:** Vapours may cause respiratory tract irritation, headache and drowsiness, or chemical pneumonitis.

**Ingestion:** Swallowing can cause irritation of the digestive tract, or have a laxative effect, resulting in rapid elimination.

**Exposure limits:** ACGIH-TLV: 5 mg/m<sup>3</sup> (oil mist).

**Acute effects:** See under "Routes of entry". Adverse effects are not expected under normal handling conditions.

**Chronic effects:** Prolonged skin contact may cause dermatitis.

*Carcinogenicity:* Ingredients are not listed by IARC or ACGIH.

*Teratogenicity, mutagenicity, other reproductive effects:* Not expected to cause reproductive harm.

**Sensitization to material:** Product is not known to cause allergies.

**Synergistic materials:** None known.

---

---

## SECTION VII - FIRST AID

---

---

**Inhalation:** Remove victim to fresh air. Allow victim to rest in a well-ventilated area. Get medical attention right away.

**Skin:** Wash affected area with soap and water. Remove contaminated clothing. If irritation persists, see a doctor.

**Eyes:** Flush eyes with large quantities of water for at least 15 minutes. Get medical attention if irritation does not go away immediately.

**Ingestion:** Do not induce vomiting. If vomiting occurs naturally, lean victim forward to prevent aspiration of material. Get immediate medical attention.

---

---

## SECTION VIII - PREVENTIVE MEASURES

---

---

**Spill, leak or release:** Small spills: Remove sources of ignition. Provide adequate ventilation. Stop flow, and absorb with inert absorbent. Collect waste in steel containers. Large spills: Dike to prevent runoff into drains, sewers and other waterways. Pump up or collect material for recycling or disposal. All spills: Wear protective equipment (see below). Dispose of in accordance with appropriate regulations.

**Waste disposal:** Dispose of waste in accordance with all local, provincial and federal regulations.

**Protective equipment:**

**Respiratory/type:** Wear a NIOSH-approved face-mask respirator with organic vapour/oil mist cartridge if air-borne levels exceed exposure limits.

**Gloves/type:** Wear neoprene gloves if skin contact is likely.

**Eye/type:** Wear splash-proof safety goggles.

**Footwear/type:** Wear safety boots as per health and safety regulations

**Other/type:** Emergency shower and eye wash station should be close to work area.

**Engineering controls:** Local exhaust at points of emission is recommended.

**Handling procedures and equipment:** Handle and open container with care. Keep away from all ignition sources. Do not smoke, eat or drink while handling. Keep container closed when not in use.

**Storage requirements:** Keep away from heat and flames. Keep from freezing. Store at room temperature, in a well ventilated area.

**Special shipping instructions:** Not regulated by Transportation of Dangerous Goods Regulations. Protect container against damage.
